

Command & Control Cognitive Training

Executive Function Intervention

for teens & young adults with ASD, ADHD, LD, etc.

Based on neuroscience research, the program is developed to enhance **Executive Functioning skills** used to perform activities such as planning, organizing, strategizing, being flexible, paying attention, remembering, & managing time & space.

12-weekly, 1.5 hr sessions:

- Small group (up to 6 participants per group)
- Hands-on, active learning approach
- Includes a parent education component
